Do the Arab descendants of Yishmael (Ishmael) who also share Abraham as a grandfather inherent part of the land of Israel???

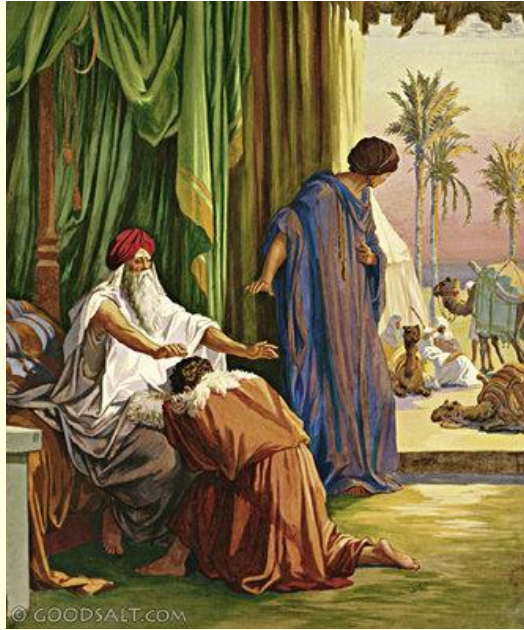

From this coming Weeks Parsha Torah/Bible Reading
Toldot (The Generations)

Genesis Chapter 26:1

Sojourn in this land (Israel), and I will be with you, and I will bless you, for to you and to your seed will I give all these lands, and I will establish the oath that I swore to Abraham, your father."

Remember Isaac and Yishmael were both Abrahams sons. God did NOT let Isaac even LEAVE the land of Israel since he clearly stated ***"for to you (Isaac) and to your seed will I give all these lands"***

Issac then gives the blessing to Jacob (who was also named Israel) transferring the blessing and inheritance to his decedents the Israelite's (The Jewish nation).

Isaac Blessing Jacob

It is also noteworthy to mention that Abraham's wife Sarah was well aware of this and said:

Genesis Chapter 21:10

"And Sarah said to Abraham, "Drive out this handmaid and her son, for the son of this handmaid (Ishmael) shall not inherit with my son, with Isaac.."

And God said to Abraham, "Be not displeased concerning the lad and concerning your handmaid; whatever Sarah tells you, hearken to her voice, for in Isaac will be called your seed."

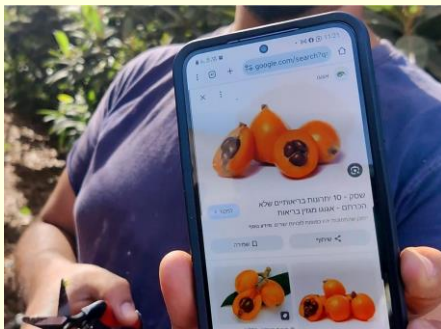

First time back since 2005, planting a tree, with a sign: Gush Katif Netzarim We have returned!

So... when people claim the Jews stole the land in the Shomron Samaria claiming we are occupying it, all we need to do is look and the Torah/Bible and clearly see who the true owners are.
